

## **Everything You Need to Know to Structure a Classroom for Students with Autism in 75 Minutes**

**Presenters:** Kathy Kelchner (Lead Presenter); Joane Walvoord

**Intended Audience:** Educators

### **Session Description**

A structured learning environment is important for success for a student with autism. Other students benefit too. Teachers have limited time to put it all together while developing meaningful individualized lessons. We will demonstrate how to implement best practices and optimize time in 75 minutes or less.
