

Get Connections?

Presenter: Sandee Yoro

Intended Audience: Direct Support Workers

Session Description

Here's one for the front line-local style! This session is designed to connect Hawaii's direct support staff to local and national resources that may be beneficial in their quest to create and facilitate meaningful relationships and experiences for people with disabilities. Attendees will receive toolkits filled with resource materials and brief overviews of local public and private agencies that serve people with disabilities in Hawaii. In addition to connecting direct support staff to local resources, attendees will be provided with time to network with their direct support colleagues and connect the best way local folks know how—talk story!! Come and join the fun as this session promises to be both educational and entertaining.
