

Implementing Self-Determination in the Real World: A Provider Experience

Presenters: Jim Dehem & Tom Nerney

Intended Audience: All audiences

Session Description

This session will examine the real issues that providers experience when going from being an old-school (traditional) community provider to embracing self-determination and converting the entire agency to one that operates on those principles. We review both the challenges, and some suggestions for how to address those challenges, and some success stories that would not have been possible had we not made the conversion.
